

Distance Education

from 23rd March 2020

Faculty of Electrical Engineering and Informatics
BUDAPEST UNIVERSITY OF TECHNOLOGY AND
ECONOMICS

- Actual Situation
- Solutions, suggestions
- Technical background
 - Teams
 - Webex

Situation

- Distant teaching begins on 23rd March until withdrawal
- The unusual situation does require cooperation, flexibility and increased effort and proactivity from both students and teachers
- Our main goal is to finish the semester at the original date

Solutions

- We keep the schedule of the original timetable
- The numeration of weeks has changed because of the transferred spring holiday
- The lectures, practices and laboratories are managed on-line
- The Faculty applies distance learning support systems

Lectures

- Same time as of the official timetable
- Digitized presentation material
- Live lecture based on time schedule (electronic board, video, voice)
- Detailed lecture note
- Recorded video
- On-line consultations

Practices

- Same time as of the official timetable
- Solving problems independently
- Live practices based on time schedule (electronic board, video, voice)
- On-line consultations
- Questions & answers

Laboratories

- Tasks to be completed by the deadline
- Recorded or live video about the measurement tasks and setups
- Measurement reports about the measurement tasks, based on given measured data
- Laboratories will not be pushed out by the end of the semester

Midterm exams

- You will receive information about the changes from the teachers
- There may be homeworks instead of traditional midterm exam
- There may be remote tests instead of traditional midterm exam

Suggestions

- Positive and constructive attitude in communication
 - Writing can be misunderstanding. Always assume positive intention!
- If not very personal, ask through a public channel
 - You get an answer from someone faster.
- In live event, please keep the microphone muted when not talking.
- A serious self-motivation challenge
 - Greater freedom
 - Keep going! By the end it will be very much!
- Let's learn how to do it together!
 - Please help others use the technique
 - Please be tolerant with the other students and the instructor

Applied systems

- Microsoft Teams
- Cisco Webex Training Center
- Official messaging with students:
 - Neptun Message, Teams, Email
 - Continuous attention to Neptun messages is extremely important. Please check your contact information (email, mobile) in Neptun!

Teams

- Please download <https://teams.microsoft.com>
 - Desktop, mobile and web client available
- xy@edu.bme.hu-s account only
 - To create an account, please go to <https://login.bme.hu/admin/>
 - It will take about 24 hours to have access so please make sure to start your registration in time.
- Redirect or check your xy@edu.bme.hu email account
 - All invitations and notifications arrive here
 - Calendar shows the lecture / lab times

CISCO Webex

- You do not have to register, it will be available from internet browser
- you will have access on bmevik.webex.com/
- all lectures will have different codes
- You will get the codes and the links from the teachers via neptun study system

**THANK YOU FOR YOUR
COOPERATION**
